

Who We Are

Specializing in digital delivery skills and cloud-powered applications, we deliver business and technology solutions to large companies who face complex challenges and demand rapid outcomes.

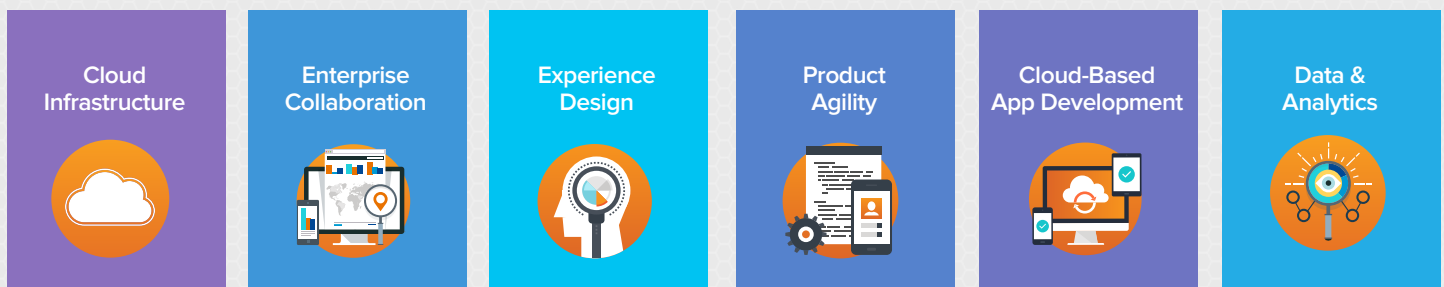

Our differentiators:

- ★ Unique multi-disciplinary team design
- ★ Product agility, powered by the business
- ★ Global delivery model
- ★ Center for Innovation

Helping clients who seek:

- ★ Game-changing insights with powerful **analytics**
- ★ Compelling **digital experiences** and connected customer relationships
- ★ A workplace of widespread **innovation** and **collaboration**
- ★ **Acceleration** of new products to market

Digital Transformation - Six Integrated Capabilities

Maven Wave Data & Analytics

Maven Wave helps strategize, build, and manage analytic platforms, cloud solutions, and next-gen capabilities like machine learning, geo spatial, IOT, and speech/image recognition to accelerate value driven insights.

Think

- ★ Strategy and Roadmap
- ★ Use Case Design
- ★ User Experience Framework
- ★ Product Evaluation and Selection

Build

Data Platform

- ★ Solution Architecture
- ★ Data Modeling
- ★ Real-Time and Batch Ingestion
- ★ Data Quality and Metrics

Cloud Migration

- ★ Cloud Readiness
- ★ Architecture Roadmap
- ★ Environment Migration
- ★ Performance and Optimization

Visualization

- ★ Dashboard Development
- ★ Google Analytics
- ★ Real-Time
- ★ Mobile App Usage

Next-Gen Analytics

- ★ Machine Learning
- ★ Video, Image, Speech
- ★ Geospatial
- ★ IoT

Run

Data Platform

- ★ Ingestion Services
- ★ Data Quality Management Services

Cloud Migration

- ★ Migration Services
- ★ Performance & Optimization

Visualization

- ★ Dashboard & Reporting Services
- ★ Platform Management

Next-Gen Analytics

- ★ Data Science Services
- ★ IoT Analytic Services
